## integrated panel

Classic 6 side lantern powered with Solar energy. The almost invisible Solar panel at the roof of the lantern has a large capacity, with an autonomy of more than 10 hours during night time. Comes with 3 retrofit filament bulbs, creating a warm & gentle light. The die-cast aluminium post can be mounted on a paved surface thanks to the included metal mounting bracket. For unpaved surfaces, you can use the special spike, available as an accessory.

6W Monocrystalline OFF AUTO	Estimated Light Run Time for Different Seasons		
	Winter	Spring	Summer
300 lumen	(101W/π) 03h40	(332W/π) 08h00	(603W/π) 10h00

Actual run time may vary depending on your specific location
