

london

integrated panel

Classic 6 side lantern powered with Solar energy. The almost invisible Solar panel at the roof of the lantern has a large capacity with an autonomy of more than 10 hours during night time. Comes with 3 retrofit filament bulbs, creating a warm & gentle light. The die-cast aluminium post can be mounted on a paved surface thanks to the included metal mounting bracket. For unpaved surfaces, you can use the special spike, available as an accessory.

| Estimated Light Run Time for Different Seasons | | | |
|--|---------------------------------|---------------------------------|---------------------------------|
| | Winter | Spring | Summer |
| 300 lumen | (101W/m ²) 03h40 | (332W/m ²) 08h00 | (603W/m ²) 10h00 |

Actual run time may vary depending on your specific location
